APPLIED MATHEMATICS AND COMPUTATION

VOLUME 52

P. M. LAPSA
Resolution-Limited Measure and Dimension 1

G. BEHFOROOZ
The Not-a-knot Piecewise Interpolatory Cubic Polynomial 29

HAYM BENAROYA
Random Eigenvalues, Algebraic Methods and Structural Dynamic Models 37

RICHARD L. PATTERSON
Distributions of Unexpended Services in a D-node Markov-Renewal Network Distinguished by Customer Class 67

G. J. CHAITIN
Information-Theoretic Incompleteness 83

G. J. CHAITIN
LISP Program-Size Complexity II 103

G. J. CHAITIN
LISP Program-Size Complexity III 127

G. J. CHAITIN
LISP Program-Size Complexity IV 141

SID YAKOWITZ
A Decision Model and Methodology for the AIDS Epidemic 149

AHMED K. KHAMAYSEH AND R. SHIVAJI
Evolution of Bifurcation Curves for Semipositone Problems When Nonlinearities Develop Multiple Zeros 173

M. H. HAMDAN
Computational Aspects of Flow Through Curved Domains: The Effect of No-Slip 189

SHIGUI RUAN
Asymptotic Stability for Volterra Integrodifferential Systems 207

D. J. NEWMAN AND M. E. PRIMAK
Complexity of Circumscribed and Inscribed Ellipsoid Methods for Solving Equilibrium Economical Models 223

J. ABDALKHANI
The Nonlinear Cooling of a Semi-infinite Solid—Implicit Runge-Kutta (IRK) Methods 233

N. S. ASAITHAMBI
A Galerkin Method for Stefan Problems 239

CHRISTOPHER RAPHAEL
Radiation Therapy Treatment Planning: An $\mathscr{L}^2$ Approach 251

L. LOPEZ
Stability of a Three-Point Scheme for Linear Second Order Singularly Perturbed BVPs with Turning Points 279

SUN JINGXIAN AND LIU LISHAN
Iterative Method for Coupled Quasi-solutions of Mixed Monotone Operator Equations 301

M. EL ATTAR
Finite Element Analysis on Distributed Memory Architectures 309

E. N. CHUKWU
Mathematical Controllability Theory of Capital Growth of Nations 317

CARLO PICCARDI
Finite-Horizon Optimal Control with Pointwise Cost Functional 345

J. A. SHAW AND N. P. WEATHERILL
Automatic Topology Generation for Multiblock Grids 355

IGNACIO MARTÍNEZ, MARÍA ANGELES GIL,
AND MARÍA TERESA LÓPEZ
Analysis of Mutual Information Measures in
Cluster Sampling 389

SHEN ZUHE AND M. A. WOLFE
Slope Tests for Newton-Type Methods 403

M. MURASKIN
Beyond Newton and Liebniz 417

VOLUME CONTENTS

INDEX FOR 1992
